Thank you for allowing us to honor you at this wonderful event. We also showcased the impact that Exponents has had on the lives of some of the most vulnerable in New York City by listening to the story of one of our clients, Ms. Linda Spellman, who overcame much to get where she is today and was proud to share with our guests what Exponents means to her. Hope to see you all again next year as we honor more heroes and celebrate the work we do.

Exponents - All Around Town!

In November Exponents debuted its first subway and marketing campaign featuring the JLC recovery and Wellness Center through the support of New York State Office of Addiction Support and Services (OASAS). Exponents development team was comprised of staff and peers who were all instrumental in every facet of development, including content, design and selection of targeted subway stations for displays. Exponents eye catching ads were displayed on single and triptych digital screens utilizing high definition technology at over 15 subway stations throughout Manhattan, Brooklyn and the Bronx including West 4th Street. Our bold and bright colors and logo piqued the interest of many of the thousands of New Yorkers who passed by. The ads have resulted in a 10 percent increase in walk-in participants.
